WHO ARE WE?

The APA Division of International Psychology represents the interest of all psychologists who foster international connections among psychologists, engage in multicultural research or practice, apply psychological principles to the development of public policy, or are otherwise concerned with individual and group consequences of global events.

The Student & Early Career Committee of Division 52 is a strong, diverse, and productive team that is dedicated to helping students and early career psychologists become involved with the dynamic community of international psychology. We strive to accomplish these goals through mentoring, collaboration, publications, networking, and fellowship.

READY TO JOIN?
